插件展现形式

一、插件图标: Action icons、Badges

二、上下文菜单 context menu

右键点击页面空白区域。可以查看插件的菜单。

三、地址栏omnibox

omnibox是向用户提供搜索建议的一种方式

- 🛊 这是我的浏览器扩展插件 | api
- ♣ 选择这个扩展程序的建议 这是我的浏览器扩展插件
- ♠ 建议结果数组的内容: tabs
- 🛊 建议结果数组的内容: storage
- 韋议结果数组的内容: scripting

四、命令 command

并使用 Commands API 响应这些组合,监听 command 键盘事件触发。例如: Manifest.json设置命令

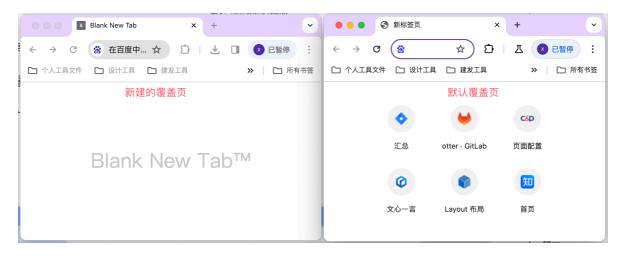

```
"commands": {
  "flip-tabs-forward": {//命令名称
   "suggested_key": {
    "default": "Ctrl+Shift+Right",
    "mac": "Command+Shift+Right"
   },
   "description": "Flip tabs forward"
  },
  "flip-tabs-backwards": {
   "suggested_key": {
    "default": "Ctrl+Shift+Left",
    "mac": "Command+Shift+Left"
   },
   "description": "Flip tabs backwards"
  }
 },
background.js监听
chrome.commands.onCommand.addListener((command) => {
 if (command !== "open-tab") return;//判断指令
 chrome.tabs.create({ url: "https://developer.chrome.com" });
});
```

五、覆盖页面 overrides-page

注意:

- 1. 每个扩展程序只能覆盖 1 个网页
- 2. 无痕式窗口中, 扩展程序无法覆盖"新标签页"页面

```
例如: mainfest.json
"chrome_url_overrides": {
    "newtab": "blank.html"
    //书签管理器: bookmarks,历史记录: history,新的标签页:newt
},
```

```
⇔ blank.html ×
                                                                                                ♥
 api-samples > override > blank_ntp > ♦ blank.html > ♦ html
          <title>Blank New Tab</title>
                                                    Blank New Tab
                                                                           ☆ ) ♪ │ 丛 □ ② 已暂停 :
                                                    ← → G (
              color: ■#cccccc;
              vertical-align: 50%;
                                                   □ 个人工具文件 □ 设计工具 □ 建发工具
                                                                                             >> 口 所有书签
              text-align: center;
              font-family: sans-serif;
              font-size: 300%;
                                                               Blank New Tab™
          <div style="height: 40%"></div>
          <div>Blank New Tab&trade;</div>

√ override / blank_ntp

blank.html
                        "name": "Blank new tab page",
{} manifest.json
                        "description": "Uses the \"chrome
                        "version": "0.3",
"incognito": "split",
                        "chrome_url_overrides": {
                          "newtab": "blank.html"
                         "manifest_version": 3
```

六、弹窗窗口 popups

```
mainfest.json
"action": {
   "default_popup": "popup.html"
}
```

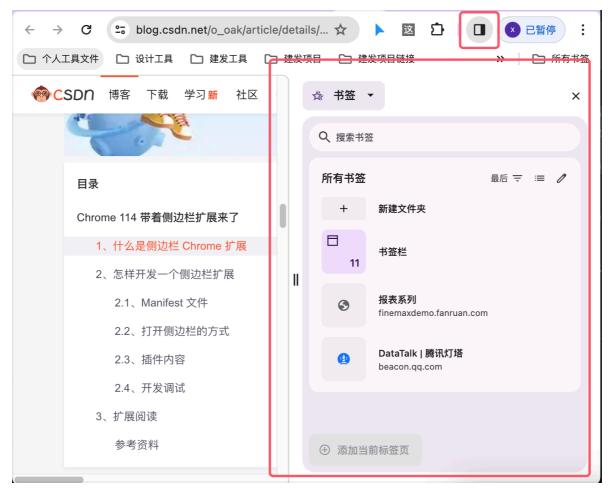

七、提示 Tooltips

```
Drink Water Event

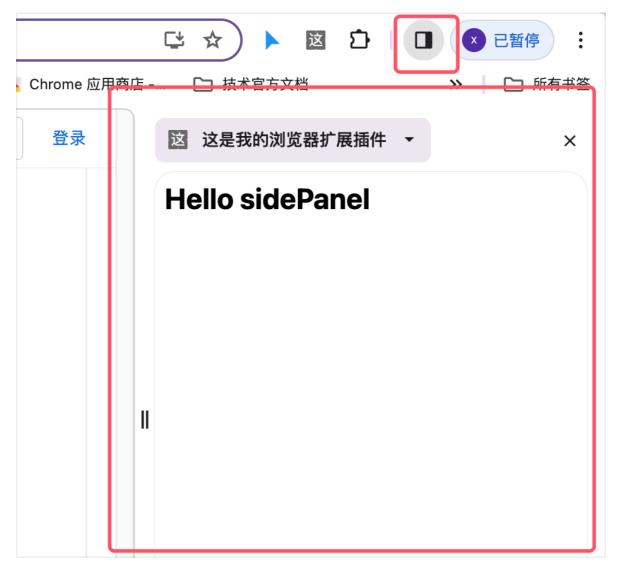

mainfest.json

"action": {
  "default_title": "Drink Water Event",
},
```

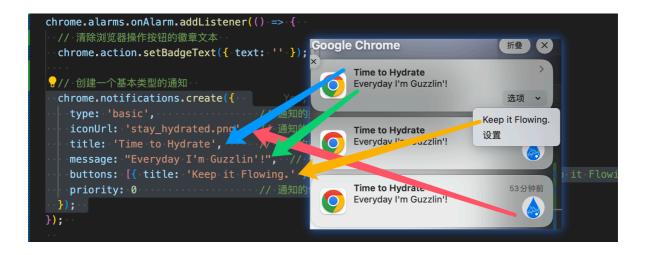

八、侧板 Side panels

```
"permissions": [
   "sidePanel"
],
"side_panel": {
   "default_path": "panel.html"
},
```

九、通知 Notifications

用户的系统任务栏 **十、主题**
